Biodiversity conservation commitments

1. Purpose

Biodiversity is the Earth's life network and the foundation of sustainable corporate development. The disappearance of every forest, every wetland, and every species poses an irreversible risk to humanity's future. As a responsible enterprise, Shanshan Technology is committed to integrating biodiversity conservation into its corporate strategy and daily operations, actively fulfilling ecological responsibilities, and working hand in hand with all parties to build a future where humans and nature coexist harmoniously.

2. Scope of Application

This policy is a public statement of intent applicable to Shanghai Shansh
Materials Co., Ltd. and/or its global subsidiaries and affiliates (hereina
referred to as "Shanshan Technology"), and encourages ups
stakeholders to jointly adrt o

3.1 Minimize the impact of operations on nature

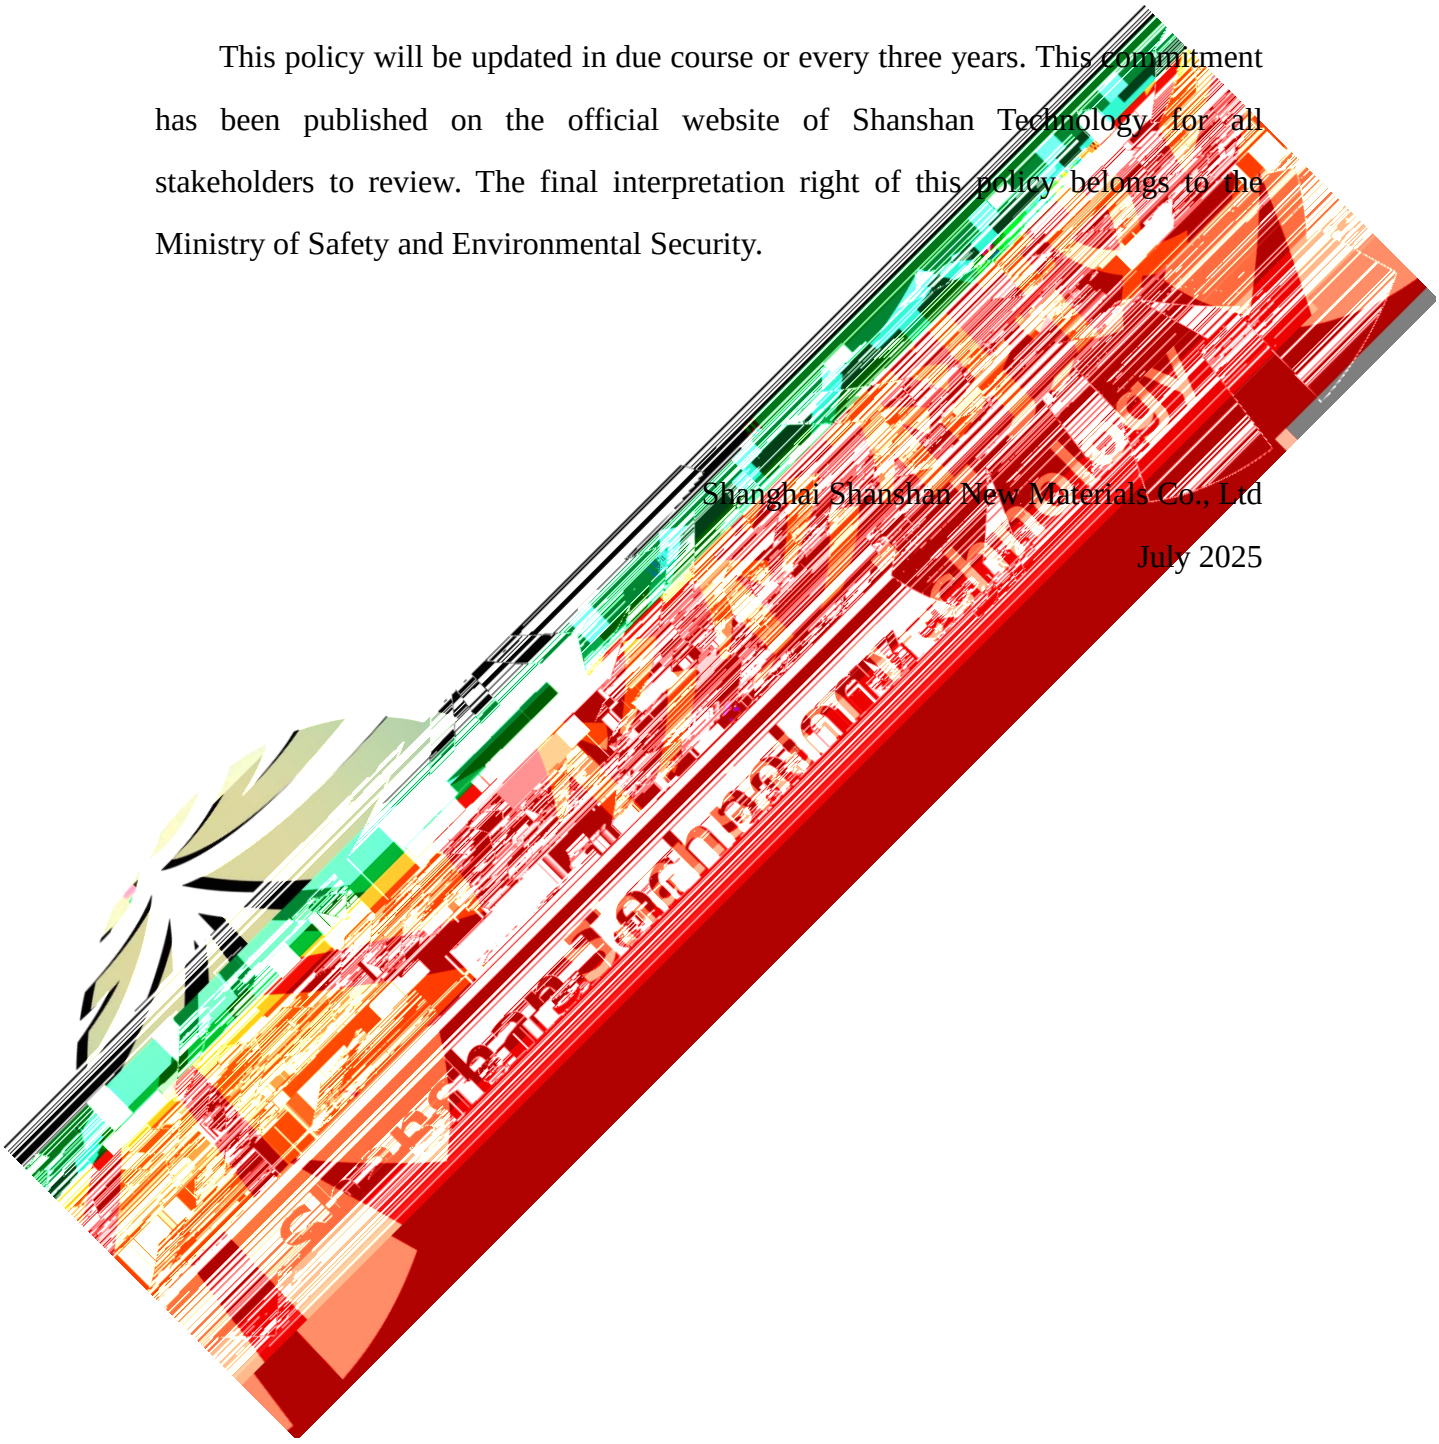

Before selecting new project sites, mandatory ecological impact assessments are conducted, prioritizing areas that are biodiversity hotspots. In project development, production, and supply chain management, prioritize assessing ecosystem impacts and avoid

humanity's future. We will be driven by innovation and guided by responsibility, contributing our corporate strength to achieving global biodiversity goals.

4. Revise

This policy will be updated in due course or every three years. This commitment has been published on the official website of Shanshan Technology for all stakeholders to review. The final interpretation right of this policy belongs to the Ministry of Safety and Environmental Security.
